

My name is Javier Garcia, I attended the FAA class last year and wanted to really thank you again for the preparation not only for the exam, but for the tips and tricks of the conducting of the auction. We opened up an auction house shortly after passing my exam, had our very first auction on March 25, and have had 4 in house 1 fundraising auction and having our next auction this Sunday. Our buyers and sellers are growing every auction and telling us that they love everything about how we conduct the auction, and wanted to thank you guys again for everything taught in the class. All the instructors in your course are awesome!!!!
